

The background of the image is a wide-angle photograph of a rugged mountain range. In the foreground, dark, rocky slopes are partially covered in snow. The middle ground shows more extensive snow patches and rocky terrain. The background features several majestic, snow-capped peaks. A thick, golden-brown mist or fog hangs in the air, particularly around the upper peaks, creating a sense of depth and atmosphere. The overall color palette is dominated by earthy tones like browns and grays, with the white of the snow and the golden light of the mist providing contrast.

MAKE IT
WORK
FOR YOUR NEEDS

TIME IS THE GREAT EQUALIZER

A FEW WORDS ABOUT WORK

We all have 24 hours and 7 days per week.

Exclude 56 hours for sleep and we're left with 112 hours to achieve all we intend to accomplish. You can't manage time, only choose what to do with it.

If you find yourself performing a repetitive task, odds are there is a better way. Automate the boring stuff.

Don't accept defaults. Customize your environment.

When one door closes, smash open a window.

YOUR LAPTOP IS YOUR CANVAS

CLEAR YOUR MIND

In 2020, your attention span will be threatened. You will be inundated with icons, notifications, sounds, dialogue boxes, flashing chat windows and ever-growing unread badge icons.

A close-up photograph of a man's torso and arm. He is wearing a dark grey suit jacket over a light blue button-down shirt and a yellow patterned tie. His right hand is adjusting the knot of his tie. On his left wrist, he wears a brown leather strap watch with a silver-toned case. His left arm is visible, showing a highly detailed tattoo of a dragon or similar mythical creature. The background is dark.

Focus

CODE EDITING REDEFINED

VISUAL STUDIO CODE

A lightweight but powerful source code editor which runs on your desktop.

Some of the best Monthly Release Notes I have ever seen.

MEET INTELLISENSE

Go beyond syntax highlighting and autocomplete with IntelliSense, which provides smart completions based on variable types, function definitions, and imported modules.

GIT COMMANDS BUILT-IN

Review diffs, stage files, and make commits right from the editor.
Push and pull from any hosted Git service.

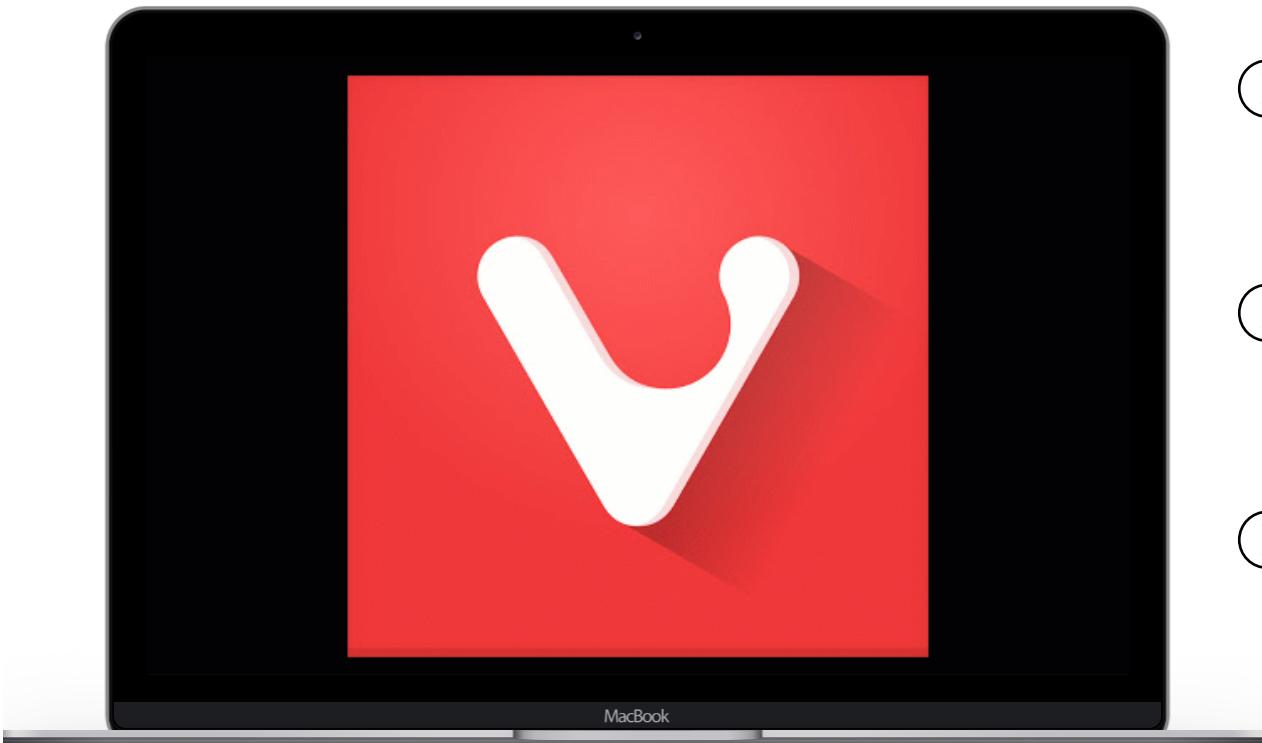

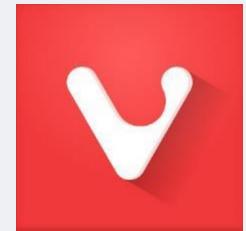

EXTENSIBLE AND CUSTOMIZABLE

Install extensions for themes, debuggers, and additional services.
Extensions run in separate processes, ensuring they won't slow down your editor.

NOT FOR EVERYBODY – JUST YOU

VIVALDI

Built on modern web technologies: JavaScript and React

› **FASTER NAVIGATION**

Utilize Chrome extensions to customize the experience.

View any site in your Vivaldi side panel.

› **TAB MANAGEMENT**

Open tabs can be saved as a session.

Easy tab cycling, tab stacks, tiling and visual previews.

› **VISUAL**

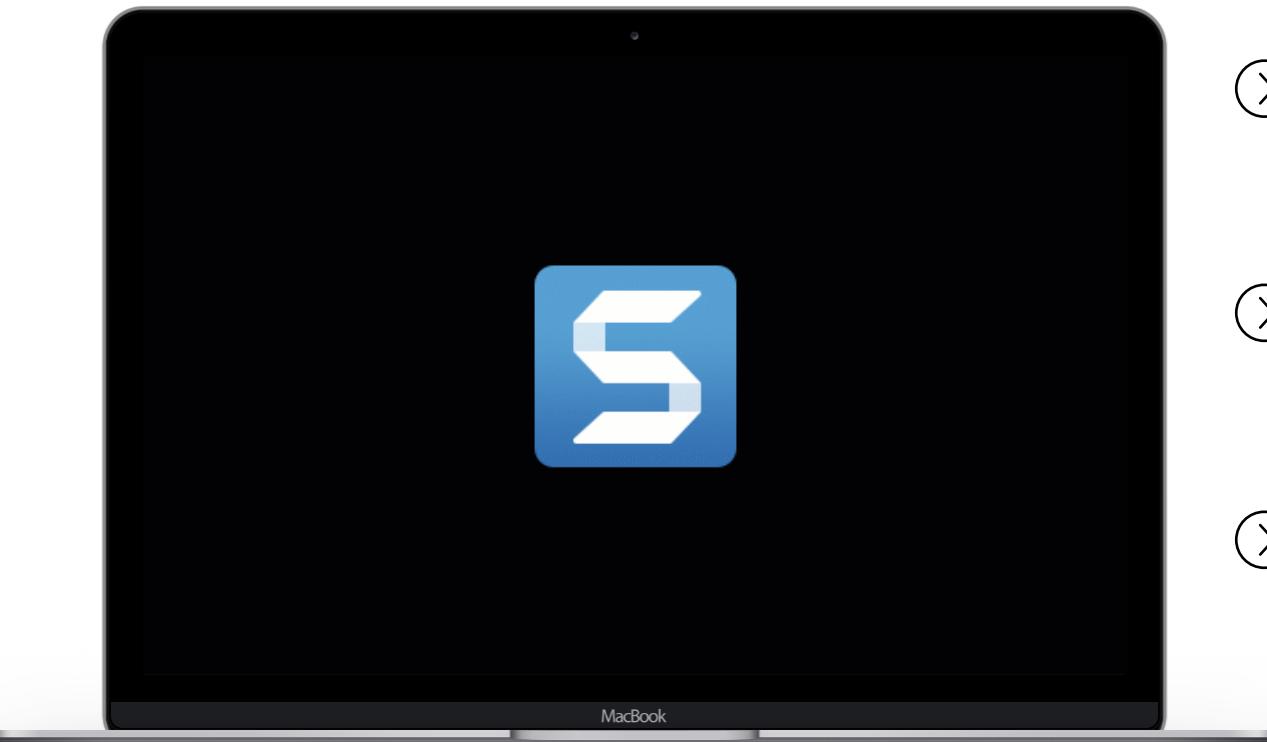

Vivaldi has an adaptive interface that adjusts to the color of the page you're viewing.

SCREEN CAPTURE FOR VISUAL DOCUMENTATION

SNAG-IT

Create images and videos to clearly get your point across. Spend less time trying to explain things and more time on the work that matters.

⟩ **CAPTURE EVERYTHING**

Take a screenshot or record a video of what you see on your computer screen.

⟩ **ENHANCE SCREENSHOTS**

Customize and edit every screenshot with markup tools. Trim images and recordings or convert videos into animated GIFs.

⟩ **LIBRARY OF PRIOR CONTENT**

Access every screenshot ever captured in a common library. Easily navigate by timestamp, application, or file type.

K E E P I T C L E A N

TREESIZE

Disk space management software at its best.

MANAGE DISK SPACE

Find out which folders are the largest on your drives and recover precious disk space. Find space hogs and quickly delete unnecessary files.

SEARCH FOR REDUNDANT FILES

Versatile file search helps you find old, big, temporary, and duplicate files on drives. Search results can be moved, deleted, or exported to a ZIP file.

VISUALIZE RESULTS

Graphical analyses provide a quick visualization of disk space usage. You can see folder sizes, allocated disk space, owner, and user permissions.

S C R E E N S L O O K L I K E T H E S U N

F.LUX

Make the color of your computer's display adapt to the time of day, warm at night and like the sunlight during the day. Eventually, you'll get better sleep.

ADAPT TO THE ROOM YOU'RE IN

Once enabled, f.lux runs in the background and silently adjusts with the lighting sources and time of day.

REDUCES EYE STRAIN

Night-time exposure to blue light affects your circadian timing.
